What an amazing week my friends at GCSAA have had! Last week golf course superintendents from New York to California and states in between hosted over 14 First Green field trips and introduced over 1,000 students to possible careers in the golf industry 🙌

Shoutout to Ryan Kraushofer, CGCS - Superintendent [@GolfSuper2GM](#) and the [@MidAtlGCSAA](#) for hosting two field trips including one in DC for National Golf Day and introducing students to [#STEAM](#) (Science, Technology, Engineering, Art, & Math) by incorporating arts into the field trips superintendents are able to discuss basic golf course design principles with the students and show off the beautiful landscapes that we get to enjoy everyday as golfers!

I can't wait to see what the future hold for these students!
